

DREAM TEENS EVENT IN CROATIAN

„Gledajući na adolescenciju kao na razdoblje turbulentnih, značajnih promjena u životu mlade osobe, kao na razdoblje koje uključuje brojne prekretnice, životne odluke, uspone i padove te u velikoj mjeri određuje osobu i njezin životni put, projekt „Dream Teens“ smatram izvanredno osmišljenim, motivirajućim i hvale vrijednim.

Također, mišljenja sam kako je izuzetno važno od najranije dobi buditi svijest mladih ljudi o važnosti promjena, o njihovoj provedbi i implementaciji, a samim time i o uključivanju u razvoj boljeg društva. Na taj način osobe svoju mladost, snagu i energiju usmjeravaju na pozitivne promjene, rastu i razvijaju se, aktivno promišljaju te djeluju u društvu u kojem žive gradeći i stvarajući bolju budućnost kako za sebe tako i za druge – postaju aktivnim građanima čiji se glas čuje.

Važno je da mladi neprestano stvaraju nove ideje, ali i da ih međusobno dijele, o njima raspravljaju, utječu jedni na druge te da iste te ideje zajedničkim snagama provedu u djelo. “

Translation:

„Understanding adolescence as a period of turbulent, significant changes in the life of a young person, as a period that includes a number of turning points, life decisions, the ups and downs and as a period that determines person's life path, the project "Dream Teens" is well designed, motivational and praiseworthy.

Also, in my opinion it's extremely important to raise young people's awareness of the importance of changes, their implementation and integration, as well as of being a part of a better society from the early age.

In that way young people focus their youth, strength and energy on positive changes, they are growing and developing, actively reflecting on the society in which they live by building and creating a better future for themselves as for the others– they are becoming an active citizens whose voice is heard.

It's important that young people are constantly generating new ideas, share them with each other, discuss them, influence on each other and put them into practice.“

Projekt DreamTeens u organiziji udruge Aventura Social osmišljen je s ciljem osnaživanja teenagera, te edukacije ove populacije u kontekstu zdravlja. Kao promatrač i posjetitelj nedavno održanog kongresa s namjerom povezivanja mladih ljudi uključenih u ovaj projekt, smatram kako bi se slični događaji trebali odvijati na globalnoj razini. Adolescencija je razdoblje života praćeno brojim promjenama u gotovo svim područjima života, te zahtjeva posebnu pažnju odraslih, osobito roditelja i profesora u školama čija je dužnost pripremiti ih za budućnost. Upravo to je osnovna svrha ovog hvale vrijednog projekta. Učenjem mladih kako preuzeti odgovornost za svoje postupke i izražavanjem interesa za njihove živote, kao i ulaganjem vremena i truda u njihovu edukaciju, sudionici projekta pokazuju jasnu želju za napretkom i boljom budućnosti za sve.

Translation:

Aventura Social project DreamTeens is a well thought out project with the purpose of empowering teenagers and educating them in the context of health. As an observer and visitor of the congress that was recently held with the intention of connecting youngsters involved in the project, I believe that the similar events should be globally organised. Adolescence is a period of life followed by numerous changes in every aspect of life and it demands special care of adults, mainly parents and teachers, whose purpose is to make sure that the mentioned youngsters are ready to become adults. That is the main objective of this praise worthy project. By teaching teenagers how to take responsibility for their own actions and showing interest in their lives, as well as investing time and trouble in their education, you show a clear desire for their improvement and better future for us all.
